## Objective

To apply my natural talent and passion for working with computers to helping people resolve their challenges in an efficient and professional way, and to continually expand my knowledge and experience with computers and software solutions.

## Experience & Skills

A+ Certification, TC Roberson High School

Experience in cyber security, hardware and software troubleshooting, computer building, some experience in video and picture editing and web design

Problem solving, devising solutions and assisting with implementation

## Work Experience

### **Rush Tech Support, Hypoluxo, Florida**

*Escalated Technician* — DECEMBER 2016 - AUGUST 2017

- Worked on escalated fixes that other technicians couldn't solve, utilizing Powershell, Tweaking and OS Installations
- Connected clients remotely via TeamViewer or LogMeIn
- Found reasoning for client problems and devised the most efficient solutions
- Sold computer software and subscriptions
- Fixed networking bugs and set up networks for clients

*Sales* — JULY 2016 - DECEMBER 2016

- Telephone sales of computer software and tech support warranties
- One of top salespersons
